1. Download OpenSSL Light for Windows at: <http://slproweb.com/products/Win32OpenSSL.html>

2. Follow the instructions in the install wizard to install OpenSSL.

3. Go to the location where you installed OpenSSL (C:\OpenSSL-Win32in) and modify the file: "C:\OpenSSL-Win32inopenssl.cfg".

4. Open cmd.exe

5. Go to the location where you installed OpenSSL (C:\OpenSSL-Win32in).

cd c:\OpenSSL-Win32in

6. If you are using a Windows machine, set the following variable.

set OPENSSL_CONF=c:\OpenSSL-Win32inopenssl.cfg

7. Generate the CSR:

openssl genrsa -out companyname_auth.key 2048

openssl req -new -key companyname_auth.key -out companyname_auth.csr

More h4 zero spacing

1. Enter the following information into your certificate signing request. Please leave the challenge password blank.

- o Country Name
- o State or Province Name
- o Locality Name
- o Organization Name

- Common Name – Use something meaningful (g. **CompanyName Corp Mutual SSL**) or whatever best describes the usage and identifies this as the Mutual SSL Authentication certificate.
 - A challenge password – **Leave this field blank.**
2. Email the ***companyname_auth.csr*** file as an attachment to your ADP representative.
 3. Save the signed certificate from ADP into a file named ***companyname_auth.pem*** in the same location that you created the CSR originally (**C:OpenSSL-Win32in**).
 4. If you are using Windows/IIS, use the commands below to get the key and certificate in PKCS12 format.
openssl pkcs12 -export -out *companyname_auth.pfx* -name "Company Name Mutual SSL" -inkey *companyname_auth.key* -in *companyname_auth.pem*
 5. Enter Export Password.
The resulting certificate and key should be in the file ***companyname_auth.pfx*** that you will reference for Mutual SSL authentication.

chapter-test-2

ONE-h3

If your organization does not qualify for [security review fast-track](#) or [security pre-approval](#), our security team will work with you to understand your security measures and get you onboarded quickly. This process starts with you completing our questionnaire and submitting other relevant documentation. Our questionnaire, built on ISO 27001, allows ADP to vet your security program. The questionnaire is available [here](#).

Other documentation that will help expedite your review:

- **Policy Documentation** (ex: Security Policy, Data Retention and Destruction Policy, Encryption Policy, HR Policy, Computing Standard/Policy, Cloud Security Policy, et al)
- **Technical Documentation** (Data Flow Diagrams, Architectural Diagrams, et al)

TWO-h3

Next Steps-h4

1. Review the Security Assessment Process, and reach out to our team if you have questions.
2. Provide the requested documentation (submit the documents listed below, send in supporting documentation, and/or complete the questionnaire)
3. Schedule a call with our security team to discuss the requirements and explain your security program.
4. Receive feedback from our security team about our assessment of your program. If there are any gap areas, our team will review them with you and work with you to develop a plan and timeline for the required remediation.
5. As your partnership with ADP grows over time, our security team will continue to work with you to help you understand changes to our security requirements.

THREE-h4

Four-h4

Security Review Completion

ADP looks forward to partnering with you. If you need additional help communicating your security program, you can reach the ADP security team at GSO_Third_Party_Risk_Management@ADP.com

FIVE-h5

ADP looks forward to partnering with you. If you need additional help communicating your security program, you can reach the ADP security team at.

SIX-h5

Seven-h5

ADP looks forward to partnering with you. If you need additional help communicating your security program, you can reach the ADP security team at.
